The network creates an organisation level marketplace - which can then link up to city, region or country wide level

Internal staff are always prioritised. Keep internal network private if required. Choose which organisations to link up with. Alter sharing settings depending on requirements

Uni of Glasgow Highlights

- £313,000 avoided procurement
- 66 tonnes KG of waste diverted from landfill locally
- 148 tonnes of supply chain CO₂ emissions avoided
- £75,000 of asset donation to local charity
- £4K of asset donation to other partners in the city

City of Glasgow Highlights

- Combined savings of
 - Almost £1 million in avoided procurement
 - 200 tonnes of waste diverted from landfill locally
 - 500 tonnes of supply chain CO₂ emissions avoided
 - £100,000 of asset donation to local charity

Key Lessons
from
Uni of
Glasgow

- Demonstrate business advantages
– easier sell
- Use existing professional networks
- Legal issues not unsurmountable
- Big players in the city all have same issues around reuse of surplus assets
- Group storage
- Group logistics- transport costs must be minimized

Take home tip
#1

- Contact your equivalent
- Other big players in the city
 - Municipal Council
 - Healthcare
 - Large private sector
 - Umbrella not for profit associations

Take home tip
#2

- Frame project around city collaboration
 - Sharing Economy
 - Smart City
 - Resilience
 - Circular Economy
